

INTELLIGENT OFFICE

ID-Connect

USB-connector for your IDrive desk

ID-Connect is a bridge between your IDrive desk and your computer. Once installed you will be able to monitor desk utilization, get statistics and operate the desk up and down to desired sitting and standing position. For a more ergonomic and healthier workplace!

Benefits

- Easy to install, up and running within minutes
- Magnets to mount on existing metal surfaces
- Personalizes your IDrive desk (IDrive required)
- Get real-time information on presence and usage
- View detailed statistics
- Motivate sit and stand, get reminders to change position
